

Who we are..

Who are we?

A team of highly skilled specialist children's nurses, who visit children with a range of complex needs and disabilities and their families at home to give nursing care and support.

We are based in 'The Den' at Chesterfield Royal Hospital and we visit children who have a specialised nursing need, registered with a North Derbyshire GP, aged 0-18 years (0-19 years if in a full time special educational setting) in their own home or other community setting.
